

Since 2004, IntelliPay has offered comprehensive traditional and fee-based payment processing solutions for credit/debit card and ACH/Echeck transactions in-person, digitally, or through an automated recurring payment module. Today, IP processes billions of dollars in ACH and credit card payments for public and private organizations.

Traditional & Patient Pays Fee Options

3
Fee
Options

Traditional Fee

A standard processing model where the provider pays all the processing costs.

- Full Card Association interchange fees
- All Bank related fees
- In-person and digital payment options

Surcharge Fee

A fee-based model that shifts credit card processing fees to the patient.

- Debit and pre-paid cards are not eligible
- The surcharge fee cannot exceed 4.00%
- Model is restricted in several states (CO, CT, KS, MA)
- Software will not add fee in prohibited states
- In-person and digital payment options

Site Fee

A specific IntelliPay program for online transactions.

- A two (2) transaction or one (1) transaction with split funding payment processing model
- A revenue neutral payment solution
- IntelliPay pays the fees and manages your merchant account
- Digital payments only

All IntelliPay payment options are 100% card brand and regulation compliant. Once your payment options are selected, the E-Management Associates/IntelliPay team will handle all the details.
